Halloween Carnival set for Oct. 19

The Halloween Carnival Committee of the Appomattox Primary School P.T.A. is busy preparing for their Halloween Carnival on Oct. 29, from 5 p.m. to 9 p.m. Members have been collecting donations from local businesses to provide prizes for the bingo games. Many items have been donated for the benefit of the children in primary education.

Local talent has been sought to fill the spotlight on stage.

This added attraction has been created to provide an enjoyable night for the entire family. Anyone wishing to share a talent please call Lauren Anderson at 352-8376; there's still time and a little room left.

For those who dare to be so brave, scary haunted houses will thrill and delight. The witches and goblins are stirring their pots, adding the ingredients to lure the curious takers.

Food and beverage will be provided in the cafeteria. Hungry spectators can eat while watching cake walkers musically march for winnings. Raggety Ann, Kermit the Frog, and Miss Piggy will be there to fill the night with excitement and laughter. Games and face painting will attract the youngest of goblins. Enter the raffles for furniture and baskets filled with food.

Don't forget to enter a pumpkin and costume in the judging for prizes. Adults are encouraged to enter, the categories will be Most Original, Funniest and Scariest.

Good News For Homemakers

Conserve water

Conserve Water – Very Important

Some persons believe that by the year 2000, Americans will be using three times the amount of water being used now. Changes in personal habits or the installation of low volume water devices can help prevent this belief from becoming fact. Faucets, commodes and showers can use a lot of water if not carefully maintained.

The average faucet uses four gallons of water per minute and an average shower can use 25 gallons. It takes five gallons of water to flush most commodes. A family of four can use between 8,000 and 10,000 gallons of water each month.

Several changes can be made to save water and money. First of all, check for leaks. When the commode handle has to be jiggled to get the water to stop, it could be leaking. To check for a leak, put a few drops of food coloring in the tank. After about 15 minutes, if the color of the water in the bowl has changed, a leak exists.

Stop a leak in the faucet by simply turning the handle a little harder. If the leak continues, the faucet may need a new washer.

Washers can be bought at local hardware stores and require only a screwdriver and a wrench to replace. Before replacing the washer, however, be sure that the water source is turned off.

Another way to save water is with low volume devices. For showers, flow restrictors or cut-offs can be installed. A flow restrictor can reduce water volume by half. A cut-off allows a person to shut off the shower without turning the water faucets off so that he or she can lather their bodies or shampoo their heads.

Most homes built in the last five or six years probably have a low volume type commode.

Low volume aerators for faucets are commercially available. An aerator mixes air with water and stops splashing, while it reduces the amount of water going through the faucet.

Another, and one of the most important ways, to reduce water consumption is with personal habits. If water is not in use, such as when brushing teeth or shaving, turn it off. Take shorter showers and use hot water for laundry only when necessary.

If you have a homemaking question or problem, you may call 352-8244 or write P.O. Box 488, Appomattox, VA 24522. It is always a pleasure to hear from you and to help you.

Recipe of the Week
Doris' Sweet Potato Cake

1½ cups flour
2½ teaspoons baking powder
½ cup shortening
2 eggs, well beaten
1 cup hot mashed sweet potatoes
¾ cup sugar
¼ teaspoon salt
1 teaspoon nutmeg
½ cup milk
2 tablespoons lemon juice

Sift flour and baking powder together. Add shortening and beaten eggs to potatoes while still hot. Add sugar, salt and nutmeg. Beat thoroughly. Add flour and milk alternately in small amounts, beating well after each addition. Add lemon juice.

Pour into a greased loaf pan and bake in a 325 ° oven 60 to 65 minutes. This recipe makes one regular loaf of sweet potato cake or two small loaves.

Many thanks to Mrs. Doris Wright, President of the Town and Country Extension Homemakers Club, for sharing this delicious recipe with us.

12 YEARS EXPERIENCE AS TREASURER

If re-elected, she promises to:

•Continue to serve the taxpayers in a courteous and efficient manner.
•Continue to keep the office open two Saturday mornings before tax deadline and county decal deadline.
•Continue to wisely invest the county's monies.

My investment policy produced $160,251.48 this past fiscal year. If we had to raise this amount of money, it would have meant an increase of 11¢ per hundred on your real estate tax rate. During the past six years, we have earned $811,499.44 in interest.

Vote for experience and proven accomplishment in investments and management of the affairs of the County Treasurer's Office as shown by an excellent annual audit report.

YOUR VOTE AND SUPPORT ON NOVEMBER 8, WILL BE GREATLY APPRECIATED.
